# LearningLama

Online Learning. Redesigned.

Hiring and training talent to fit into the especial business culture of your organization is an expensive practice especially with respect to the anxieties over retention of that talent. Learning Lama through an e-learning platform mitigates these costs and augments the aptitude of talent through interactive modules that engage better.

The application espouses training modules that unite rich media content and a self-paced environment that decidedly enhance the attention of talent in absorbing the training. The engine juggles different functionalities across setting effective alarms and reports to periodic evaluations that track the performance of every trainee involved in the program.

## Features:

More often than not, you spend on hiring and training talent to your business's especial operations and find them leaving you too soon to make a return on your investment. Learning Lama, through its e-learning platform reduces the costs and time of training while enhancing training with highly interactive modules.

Plan online learning session

Easy to customize & create modules

Easy to Assign modules

Role based secure access

User friendly admin module

Use of rich media & interactive content

Robust performance tracking

Inbuilt online assessments module

### Reduced Costs:

- ✓ No Upfront software cost
- ✓ No maintenance and upgrade costs
- ✓ Minimal IT infrastructure required
- ✓ Pay per use model

Not only does our e-learning application provide superior training modules, we also aim at tracking modules to deliver solutions that count.

With rich media content through an interactive, self-paced environment, we at Five Elements believe in Learning Lama as a breakthrough platform for all businesses that rear competitive advantage as with their talent. For managing the content of your modules, our online learning engine juggles effortlessly between different functionalities that pleasantly reward our clients.
